**7.3.1\_2****Distinctiveness 2****HOLISTIC APPROACH TO EDUCATION**

Prioritizing the holistic development of students necessitates that teachers not only remain updated about the recent developments in their own fields, but also keep themselves abreast of emerging technologies in education as well as the new approaches to pedagogy that ensures the mental and spiritual wellbeing of the students. To this end, the majority of the teachers have undertaken Faculty Development Programmes to sensitize themselves about the new developments brought about by the National Education Policy 2020 so that they remain attuned to the demands of this new approach that incorporates a diversity of perspectives including the Indian Knowledge Systems and Pedagogy. Further, many of the faculty members have attended training programmes on the emerging digital tools and technologies, yoga, stress management and mental health, environmental awareness and so on which help them nurture students for the changing times. The list of the teachers attending various Faculty Development Programmes testifies this fact

- ❖ The various achievements of our students in extra-curricular activities bear testimony to the importance that the college attaches to holistic development of students. This approach to all round development not only benefits them during the course of study in the college, but become a life-long asset inspiring them to scale new heights in their careers. Even after graduating from the college students continue to add new feathers to the cap of the college through their achievements. One of the best examples of the college's success in nurturing its students is the success story of its alumni Jayanta Paul and Aminur Hossain who have played a crucial role in the Chandrayan 3 Mission of ISRO. A list of the various achievements of students and alumni is provided in the following link.
